Re: Ms. Laura Duddy (nee Anctil)

It is indeed a pleasure and an honour to provide a Letter of Reference for Ms. Laura Duddy. I have known her for some time going back to her single days as a young lady and later as she married Michael Duddy.

She is a dedicated and committed young lady who, despite her pregnancy, offered her complete time, energy and attention to coordinating between the 2016 Alberta Winter Games Directors and the equipment storage at Medicine Hat Monumental. The equipment inventory was large and had to be accounted for throughout the Games. By setting up a controlled management scheme that was accepted by all equipment-in and equipment-out was managed successfully.

Reference to this work above points the reliability Laura has to look after her daughter and husband's needs while at the same dedicating her time and energy to a love she has had for learning and education. As she works toward accomplishing her dream I know she will be able to complete all aspects at a high standard. There are very few people who can make a commitment such as Laura has as to making sure she does not neglect being a good mother. Being a good mother brings out the compassion and caring that will be so necessary in her chosen career.

Education is a serious venture that involves the minds of children who need a good grounding in the basics of life and the knowledge to succeed. Ms. Duddy has shown that she can lead and I am quite sure that she will carry on these talents and skills into the classroom and into the educational environment in which she will be working. She has the capability of being a strong asset in any school in which she may be appointed.

I have no qualms about recommending Laura Duddy as a future educator, one who will always perform at a high standard. Her studying skills while going through training can be accommodated and strengthened by her parenting skills that she has. I wish her well in her future endeavours and know that she will be successful in all of the aspects involved.

Thank you.
