March 20, 2015

To whom it may Concern:

I am pleased to offer this letter of thanks to Laura Anctil for her contribution to our annual science fair held on March 6, 2015 at Mother Teresa School.

Laura volunteered as one of our community judges on the day of the contest. Laura arrived on time and was friendly while working with the students. She handled herself with confidence and poise and reflected the values of volunteerism and community spirit. Laura provided insightful questions to each of the exhibits she judged and challenged the students understanding of their own projects. The students were able to more fully explain their work by defending their processes and conclusions. Her feedback was age appropriate and encouraged individual growth and celebrated the successes in each exhibit she visited.

Without this kind of community support these events are difficult to host. Thanks to the help we have received from Laura and other community member the event was a huge success. We have received many compliments from staff and community members on the quality of the event and the added value that incorporating community judges, such as Laura, has provided.

If you require any further information please do not hesitate to contact me with any questions or need for clarification.

Sincerely,

Nick Gale
Vice-Principal
